Nuclear Power Plant Services

NASA

Atucha II Nuclear Power Plant (745 MWe)
Radiation Monitoring System
Lima, Buenos Aires, Argentina
EPC / 2011

At **TECNA** we recognize that nuclear technology will play a growing role as part of the energy mix.

Many countries are renewing their interest in nuclear power generation, in addition to the applications of nuclear technology to medicine and industry.

We have experience in nuclear power plant projects, supported by the qualification of our human resources, our professionals and technicians.

- Engineering and consulting
- Project management and construction
- Safety analysis
- Plant start up assistance

NASA

Atucha II Nuclear Power Plant
Lima, Buenos Aires, Argentina
Engineering and start up assistance /
2009 - 2011

NASA
Atucha II Nuclear Power Plant
Calculation code development
and transient analysis
Lima, Buenos Aires, Argentina
Engineering / 2010
